

The Ultimate Guide to Choosing the Best Sewing Machine for Boutique in India

Opening a boutique or running a boutique business online from home is an exciting venture, and choosing the right sewing machine is a crucial decision for your success. At Disha Fashion Institute, we understand the unique needs of boutique owners and aspiring entrepreneurs. In this comprehensive guide, we will explore the best sewing machines for boutique purposes, focusing on electric machines for smaller operations and introducing the Umbrella sewing machine and direct drive motor machines for heavier workloads.

Best Electric Sewing Machines for Small Boutiques

If you run a small boutique with around 4 hours of work daily, consider opting for a stylish designer electric sewing machine. You can choose from the 3 options listed below, with Usha Stitch Magic being the top recommendation.

1. USHA Stitch Magic Electric Sewing Machine 23 Built-in Stitch & 57 Stitch Functions

[Usha Stitch Magic Sewing Machine](#)

[Check the Price from Flipkart](#)

FREE USHA SEWING MACHINE DEMO

[Check and Decide](#)

[Click to Request a Demo](#)

The Stitch Magic sewing machine by USHA is designed to cater to a variety of stitching needs with its automatic needle threading, 23 built-in stitches, and 57 stitch functions. The aluminium die-cast body ensures durability and stability during operation. The machine's free arm and detachable extension bed make circular stitching a breeze, providing flexibility in garment construction. With a carrying handle, this machine is portable and convenient for users on the go.

The machine's nine applications, two dials for pattern and stitch length selection, and 860 SPM sewing speed contribute to a user-friendly experience. The manual thread tension control, triple strength stitch, and dial-type stitch pattern selector add to the versatility of this sewing machine.

For those seeking a reliable and versatile sewing companion, the Usha Stitch Magic combines functionality, durability, and creative potential, making it a suitable choice for both beginners and experienced sewers.

Features:

1. Automatic Needle Threading:

- Facilitates easy and quick threading of the needle, saving time and effort.

2. Free Arm Function:

- Allows for circular stitching, making it convenient to sew hard-to-reach areas like cuffs and collars.

3. 23 Built-in Stitches:

- A versatile selection of built-in stitches, including a buttonhole stitch, catering to various sewing needs.

4. Fourteen Applications:

- Offers diverse applications such as stretch stitching, button fixing, rolled hemming, blind stitch hemming, and zip fixing for enhanced creativity.

5. Twin Needle Facility:

- Enables enhanced designing options, adding decorative elements to your projects.

Technical Specifications:

- **Brand:** USHA
- **Model Name:** Stitch Magic
- **Colour:** White
- **Type:** Electric
- **Number of Stitches:** 23
- **Number of Buttonhole Styles:** 1
- **Sewing Speed:** 860 SPM
- **LCD Screen Display:** No
- **Material:** Aluminium
- **Maximum Stitch Width:** 5 mm
- **Maximum Stitch Length:** 4 mm
- **Bed Type:** Free Arm/Flat bed convertible
- **Bobbin Type:** Drop & Sew Bobbin System
- **Power Requirement:** 220 - 240 V
- **Motor:** 60 W, **Bulb:** 15 W
- **Width:** 36.9 cm
- **Height:** 22.2 cm
- **Depth:** 46.7 cm
- **Weight:** 7.6 kg

Pros:

1. **Versatility:** A wide range of built-in stitches and applications for various sewing projects.
2. **Free Arm Functionality:** Easy circular stitching for challenging areas on garments.
3. **Twin Needle Capability:** Allows for creative and decorative stitching options.
4. **Portability:** Comes with a carrying handle for easy transportation.

Cons:

1. The machine is not recommended for heavy and prolonged use.

2. Usha Janome Wonder Stitch Plus 35 Stitch Functions Sewing Machine

[Usha Wonder Stitch Plus](#)

The Usha Wonder Stitch Plus Sewing Machine is a versatile and user-friendly electric sewing machine that caters to a variety of stitching needs. With automatic needle threading, 23 built-in stitches, 35 stitch functions, and three dials for pattern, stitch length, and width selection, this machine simplifies the tailoring process. The pink-coloured machine comes with a hardcover for extra protection and includes twelve applications, along with specialized feet for tasks like blind hemming and fine edge stitching. Additionally, it features a free arm for circular stitching and a presser foot for automatic buttonholes.

Features:

1. Three Dials for Easy Operation:

- Seamlessly choose the ideal pattern, stitch length, and width for any tailoring project with three user-friendly dials.

2. Free Arm Functionality:

- The free arm allows easy stitching in circular and hard-to-reach areas like cuffs, sleeves, and collars.

3. Automatic Needle Threader:

- Effortlessly thread the needle's eye with the automatic needle threader, simplifying the setup process.

4. Hard Cover for Durability:

- The sewing machine comes with a hardcover, ensuring protection against damage and contributing to its long-lasting durability.

5. Multiple Applications:

- With twelve applications, including stretch stitching, button fixing, rolled hemming, satin stitch, zip fixing, and smocking, the machine provides versatility for various sewing projects.

Technical Specifications:

- **Brand:** USHA
- **Model Name:** Wonder Stitch Plus
- **Colour:** White
- **Type:** Electric
- **Number of Stitches:** 32
- **Number of Buttonhole Styles:** 1
- **Sewing Speed:** 850 spm
- **LCD Screen Display:** No
- **Width:** 10 inches

- **Height:** 12 inches
- **Depth:** 8 inches
- **Weight:** 8 kg

Technical Specifications Continued:

- **Bobbin System:** Auto Tripping
- **Button Hole Sewing:** One-Step
- **Drop Feed for Embroidery:** Yes
- **Needle Threading:** Automatic
- **Number of Stitch Functions:** 36
- **Sewing Light:** Yes
- **Sewing Speed:** 860 spm (Stitches Per Minute)
- **Stitch Length Control:** Yes
- **Stitch Pattern Selector:** Dial Type
- **Stitch Width:** 5 mm
- **Thread Tension Control:** Manual
- **Triple Strength Stitch:** Yes
- **Twin Needle Capability:** No

Pros:

1. **User-Friendly Operation:** The three dials make it easy to select patterns, stitch lengths, and widths.
2. **Versatility:** Offers 35 stitch functions and multiple applications, ensuring flexibility for various sewing projects.
3. **Automatic Features:** Automatic needle threading simplifies the setup process, enhancing efficiency.
4. **Hardcover Protection:** The included hardcover ensures the machine's longevity by protecting it from damage.

Cons:

1. **No Twin Needle Capability:** Lacks the capability for twin needle stitching.
2. The machine is not recommended for heavy and prolonged use.

The Usha Wonder Stitch Plus Sewing Machine is a reliable choice for both beginners and experienced sewers, offering a range of features for a seamless and efficient stitching experience. Whether you're working on simple repairs or intricate dressmaking, this machine is designed to meet your diverse sewing needs.

3. USHA Janome SEW MAGIC 30 Built-In Stitches Electric Sewing Machine

[Usha Janome Sew Magic](#)

[Check the Price from Flipkart](#)

FREE USHA SEWING MACHINE DEMO

[Check and Decide](#)

[Click to Request a Demo](#)

Features:

- Built-in Stitches: 30
- Start/stop button for smooth operation
- Speed regulating slider
- Automatic Needle Threader
- Needle up/down button for stitching perfect corners

Technical Specifications:

- Maximum Stitch Width: 5 mm
- Sewing Speed: 820 SPM

Pros:

- Variety of built-in stitches
- Time-saving features for efficient sewing

Cons:

- Not suitable for heavy-duty tasks

Best Heavy-Duty Sewing Machine for Large Boutique

For larger boutiques with extended working hours and multiple staff members, Disha Fashion Institute recommends complementing your electric machine with a heavy-duty sewing machine with having very high SPM(Stitch Per Minute). Please remember that if you have a large boutique where your machine will run for 6 to 8 hours a day, and you have to meet the deadlines to deliver the orders, then SPM or stitch per minute will become a key performance indicator.

Umbrella Sewing Machines for Boutique

If you have a low budget then you can go for a manual Umbrella sewing machine for boutique. We have described 3 Umbrella machines below. These machines will be available withing 4000k to 7000k INR. Umbrella sewing machines are basically heavy-duty industrial machines with very high SPM. Different companies offer Umbrella sewing machines.

4. Singer Workmate Full Shuttle Umbrella Sewing Machine

[SINGER WORKMATE FULL SHUTTLE UMBRELLA MACHINE](#)

[Check the Price from Flipkart](#)

Features:

- Built-in Stitches: 1
- Reverse Feed Mechanism
- 5-25 SPI (Stitches Per Inch)
- Wick Lubrication
- 1/12 H.P. Motor for Higher Speed (Motor can be purchased separately)
- Square Arm Shape
- Sewing Speed: 2000 SPM

Pros:

- Ideal for heavy-duty tasks
- High SPM for faster and more efficient stitching
- Option for manual operation on foot

Cons:

- Manual operation might require additional effort

5. Rilson TA-1 Umbrella Sewing Machine

[Rilson TA1 Umbrella](#)

[Check the Price from Flipkart](#)

The Rilson TA-1 Umbrella Sewing Machine is a manual, full-round shuttle model designed for versatile applications. Operating totally noiseless, this high-speed sewing machine is capable of producing 1700 stitches per minute. The umbrella design, characterized by a round arm shape, makes it suitable for use in boutique shops, tailor shops, industrial settings, and home tailoring.

General Features

- **Brand:** Rilson
- **Model Name:** TA-1/ UMBRELLA /BIG/DOMESTIC SEWING MACHINE WITH FULL SHUTTLE

- **Thread Tension Adjustment:** Yes

Body And Design Features:

- **Bobbin Winder:** Yes
- **Other Body And Design Features:** Round arm shape
- **Width:** 19 cm
- **Height:** 28 cm
- **Depth:** 42 cm
- **Weight:** 13 kg

Key Features:

1. High-Speed Stitching:

- Capable of producing 1700 stitches per minute, ensuring efficient and quick sewing.

2. Versatile Stitching:

- Can stitch all types of fabrics, including cotton, Lycra, jeans, and more.

3. Special Gear Mechanism:

- Equipped with a special gear mechanism to achieve high-speed stitching with efficient quality.

4. Noiseless Operation:

- Operates totally noiseless, providing a quiet and smooth sewing experience.

5. Round Arm Shape:

- The round arm shape enhances flexibility and ease of use, accommodating various sewing requirements.

Specifications:

- **Thread Tension Adjustment:** Yes

- **Bobbin Winder:** Yes
- **Shape:** Round
- **Width:** 19 cm
- **Height:** 28 cm
- **Depth:** 42 cm
- **Weight:** 13 kg

Pros:

1. **High Sewing Speed:** Capable of producing 1700 stitches per minute for efficient and quick sewing.
2. **Versatility:** Suitable for stitching all types of fabrics, making it ideal for various sewing projects.
3. **Special Gear Mechanism:** Ensures high-speed stitching with efficient quality.
4. **Quiet Operation:** Operates totally noiseless, providing a peaceful sewing environment.
5. **Round Arm Shape:** Enhances flexibility and ease of use for different sewing applications.

Cons:

1. **Manual Operation:** Being a manual sewing machine, it may require more effort compared to electric machines.
2. **No Motor and Base Table:** Lacks the convenience of a built-in motor and base table.

The Rilson TA-1 Umbrella Sewing Machine is an ideal choice for those who prioritize high-speed stitching, versatility, and noiseless operation. Its round arm shape and special gear mechanism contribute to an efficient and flexible sewing experience, making it suitable for a range of settings from boutique shops to home tailoring.

- Operates totally noiseless, ensuring a quiet and smooth sewing experience.

Specifications:

- **Number of Stitches:** 1
- **Number of Buttonhole Styles:** 0
- **Sewing Speed:** 1700 SPM
- **Material:** Cast IRON
- **Shape:** Square
- **Bobbin Winder:** Yes
- **Width:** 19 cm
- **Height:** 28 cm
- **Depth:** 42 cm
- **Weight:** 13 kg

Pros:

1. **High Sewing Speed:** Capable of producing 1700 stitches per minute for efficient and quick heavy-duty sewing.
2. **Heavy-Duty Construction:** Crafted with cast iron for durability and stability during heavy-duty use.
3. **Versatility:** Suitable for stitching all types of fabrics, making it ideal for heavy-duty projects.
4. **Special Gear Mechanism:** Ensures high-speed stitching with efficient quality.
5. **Noiseless Operation:** Operates totally noiseless, providing a peaceful sewing environment.

Cons:

1. **Manual Operation:** Being a manual sewing machine, it may require more effort compared to electric machines.
2. **No Motor and Base Table:** Lacks the convenience of a built-in motor and base table.

The Rilson SPECIAL 95T-10 Umbrella Heavy Duty Sewing Machine is designed for those who prioritize heavy-duty stitching, versatility, and noiseless operation. Its square arm shape and special gear mechanism contribute to an efficient and durable sewing experience, making it suitable for various settings from boutique shops to industrial applications.

Heavy Duty Electric Sewing Machine for Boutique

If your budget is between 20,000 to 25,000 INR, it's a good idea to get an in-built motor heavy-duty sewing machine. These machines may not have fancy design options, but they're crucial for a boutique where speed is important. We've provided details about three direct-drive

machines below. Either of the first two is essential if your machine needs to run for at least 8 hours daily. These machines can handle a lot of work quickly, doing weeks of work in just days.

If you also want a designer machine, you can consider one of Usha's designer models like Stitch Magic, Sew Magic, or Wonder Stitch Plus to complement your direct-drive motor machine. In our experience, most boutique work involves simple lock stitch tasks, and designer work requires less engagement. So, having a separate designer machine for those specific tasks can be a good choice.

7. Usha S2 Single Needle Lockstitch Direct Drive Machine

The Usha S2 Single Needle Lockstitch Direct Drive Machine is revolutionizing the high-speed industrial sewing machine market, emerging as a new favorite among users. With a powerful 550-watt motor, this machine boasts impressive stitching capabilities, reaching speeds of up to 5000 SPM (stitches per minute) while ensuring durability.

Usha Heavy Duty Machine

FREE USHA SEWING MACHINE DEMO

[Check and Decide](#)

[Click to Request a Demo](#)

Key Features:

1. Environment-Friendly and Power-Efficient:

- The in-built motor is not only power-efficient but also environmentally friendly.

2. Maximum Speed:

- Achieves a maximum stitching speed of **5000 SPM** for efficient and rapid sewing.

3. Maximum Stitch Length:

- Offers a maximum stitch length of 5 mm, providing versatility for different stitching needs.

4. Presser Bar Lift by Knee:

- Allows easy control with a presser bar lift by knee at 5.5/13 mm.

5. Programmable Sewing Speed:

- The sewing speed is programmable, allowing customization based on the requirements of the project.

6. Push Button for Half Stitch Function:

- Features a push button for the half-stitch function, enhancing precision and control.

7. Copper Winding Motor:

- Equipped with a copper winding motor for efficient and reliable performance.

8. LED Type Needle Light:

- Illuminates the workspace with LED type needle light for enhanced visibility.

9. Auto Lubrication:

- Includes an auto-lubrication system for hassle-free maintenance.

10. Needle Position (Up/Down):

- The needle position can be adjusted up or down, facilitating corner stitching, pocket attaching, and collar stitching.

11. Safety Features:

- Incorporates safety features such as a motor pulley cover, finger guard, and take-up lever guard.

12. Broader Reverse Lever:

- Features a broader reverse lever for better grip and control during sewing.

13. Touch Panel Position:

- The touch panel is strategically positioned for ease of use, ensuring a comfortable and efficient sewing experience.

14. Suitability:

- Suitable for stitching light to medium fabrics, making it versatile for a range of applications.

Technical Specifications:

- **Model Number:** Usha-S2 Single Needle Lock Stitch
- **Application:** Stitching for Light to Medium Fabric
- **Stitch Type:** SNLS-301
- **Needle Light:** LED Type-3 STEP
- **Needle Bar Stroke:** 37.2 mm
- **Lubrication Type:** Automatic
- **Hook Set:** Full Rotary
- **Stitch Length Max.:** 5mm
- **Pressure Foot Height:** 5.5/13 mm
- **Stitch Correction Key:** Yes
- **Up/Down Needle Position:** Yes
- **Sewing Speed Adjustments:** Yes
- **Motor Type & Watt:** In-built Direct Drive Motor & 550W

- **Sewing Speed:** 5000 SPM

The Usha S2 Single Needle Lockstitch Direct Drive Sewing Machine combines cutting-edge technology with user-friendly features, making it an excellent choice for those seeking high-speed industrial sewing capabilities. Its advanced functionalities, safety features, and programmable options cater to the diverse needs of the sewing industry, ensuring precision and efficiency.

8. Singer Industrial Sewing Machine – 9900 (for light fabrics)

If you like Singer more than Usha, you can get the Singer 9900 sewing machine for your boutique. It's like a twin to the Usha S2 we talked about earlier. Both machines cost about the same, so it's really up to what you like. Some people like Usha, and some people like Singer. But both machines are equally good at everything, and they both come with home service.

Singer 9900 Heavy Duty

The Singer 9900 Industrial Sewing Machine is a Single Needle Lockstitch machine designed for light to medium-weight applications. With its adjustable settings, high sewing speed, and efficient features, it caters to a range of fabrics, including shirting, knits, and woven materials. The Direct Drive in-built motor ensures precision and reliability in stitching.

Key Features:

1. **High Sewing Speed:**

- This industrial machine offers a maximum sewing speed of 5500 SPM (Adjustable), ensuring efficient and rapid stitching.

2. Maximum Stitch Length:

- Users can achieve a maximum stitch length of 5mm, suitable for a variety of stitching requirements.

3. Presser Foot by Knee:

- The presser foot is controlled by knee operation, providing a lift of up to 13mm for ease of fabric handling.

4. Single Needle - DBx1 #14:

- Equipped with a single needle, specifically the DBx1 #14, designed for light to medium-weight fabrics.

5. Direct Drive In-built Motor (550w):

- The powerful Direct Drive in-built motor (550w) ensures smooth and precise stitching.

6. Regular Hook:

- Features a regular hook, suitable for light to medium-weight fabric applications.

7. Stand and Table:

- Comes with a stand and table for stable placement and ease of use.

8. Compatible Fabrics:

- Ideal for working with fabrics like shirting, knits, and woven materials, providing versatility.

9. Power Consumption:

- Operates at 220V, ensuring power efficiency during industrial stitching.

10. Fully Automatic Lubrication:

- Incorporates a fully automatic lubrication system for minimal maintenance and optimal performance.

11. Lubrication Oil - Singer "C" Type Oil:

- Utilizes Singer "C" Type Oil for effective lubrication, contributing to smooth operation.

Technical Specifications:

- **Application:** Light to Medium-weight
- **Max Sewing Speed:** 5500 SPM (Adjustable)
- **Max Stitch Length:** 5mm
- **Presser Foot:** By Knee - 13mm lift
- **Needle:** Single - DBx1 #14
- **Motor:** Direct Drive In-built Motor - ESDD (550w)
- **Hook:** Regular
- **Stand and Table:** Yes
- **Compatible Fabrics:** Shirting, Knits, Woven
- **Power Consumption:** 220V
- **Lubrication:** Fully Automatic Lubrication
- **Lubrication Oil:** Singer "C" Type Oil

Pros:

1. **High Sewing Speed:** Achieves a maximum speed of 5500 SPM for efficient industrial stitching.
2. **Adjustable Stitch Length:** Offers flexibility with a maximum stitch length of 5mm.
3. **Knee-Operated Presser Foot:** Allows easy control of the presser foot lift for efficient fabric handling.
4. **Direct Drive Motor:** The in-built motor (550w) ensures precise and reliable stitching.
5. **Regular Hook:** Suitable for light to medium-weight fabric applications.
6. **Versatile Fabric Compatibility:** Ideal for shirting, knits, and woven materials.
7. **Sturdy Stand and Table:** Provides stability and support during industrial stitching tasks.

8. **Power Efficiency:** Operates at 220V, ensuring efficient power consumption.
9. **Fully Automatic Lubrication:** Maintains optimal performance with an automatic lubrication system.

Cons:

1. **Not Suitable for Heavy Fabrics:** Designed for light to medium-weight fabrics; may not be ideal for heavy materials.
2. **May Require Experience:** The high-speed nature of the machine may be challenging for beginners.

The Singer 9900 Industrial Sewing Machine offers a balance of speed and precision, making it suitable for light to medium-weight fabric applications in industrial settings.

9. Singer 9900-H High Speed Direct Drive (for heavy fabric)

The Singer 9900-H is a High-Speed Direct Drive Single Needle Lock Stitch Machine designed for heavy-weight applications. This machine has similar features as 9900, however, buy this sewing machine for boutique only if you need to sew leather, jeans or other heavy fabric. Otherwise, go for Usha S2 or Singer 9900. With its robust features and adjustable settings, this machine is tailored for tasks involving heavy fabrics such as leather and denim. The Direct Drive in-built motor ensures efficient and powerful operation.

Singer Heavy Duty Heavy Fabric Machine for Boutique

[Buy from Amazon](#)

Key Features:

1. High Sewing Speed:

- The machine boasts a maximum sewing speed of 3500 SPM (Adjustable), making it suitable for high-speed heavy-duty stitching.

2. Maximum Stitch Length:

- Offers a maximum stitch length of 7mm, providing flexibility for various stitching requirements.

3. Presser Foot by Knee:

- The presser foot can be controlled by knee operation, offering a lift of up to 13mm for easy fabric handling.

4. Single Needle - DBx5 #14:

- Equipped with a single needle, specifically the DBx5 #14, suitable for heavy-weight fabrics.

5. Direct Drive In-built Motor (550w):

- The powerful Direct Drive in-built motor (550w) ensures efficient and smooth operation.

6. Large Hook Type:

- Features a large hook type, enhancing its capacity for heavy-duty stitching.

7. Compatible Fabrics:

- Ideal for working with heavy fabrics like leather and denim, providing versatility for various applications.

8. Stand Table:

- Comes with a stand table for stable and secure machine placement.

9. Power Consumption:

- Operates at 220V, ensuring power efficiency during heavy-duty stitching.

10. Fully Automatic Lubrication:

- Incorporates a fully automatic lubrication system, contributing to the machine's longevity and smooth performance.

11. Lubrication Oil - Singer "C" Type Oil:

- Utilizes Singer "C" Type Oil for effective lubrication, ensuring optimal functioning.

Technical Specifications:

- **Application:** Heavy Weight
- **Max Sewing Speed:** 3500 SPM (Adjustable)
- **Max Stitch Length:** 7mm
- **Presser Foot:** By Knee - 13mm lift

- **Needle:** Single - DBx5 #14
- **Motor:** Direct Drive In-built Motor - ESDD (550w)
- **Hook Type:** Large
- **Compatible Fabrics:** Leather, Denim
- **Stand Table:** Yes
- **Power Consumption:** 220V
- **Lubrication:** Fully Automatic Lubrication
- **Lubrication Oil:** Singer "C" Type Oil

Pros:

1. **High Sewing Speed:** Capable of handling heavy-duty tasks at a maximum speed of 3500 SPM.
2. **Adjustable Stitch Length:** Offers flexibility with a maximum stitch length of 7mm.
3. **Knee-Operated Presser Foot:** Allows easy control of the presser foot lift for efficient fabric handling.
4. **Direct Drive Motor:** The in-built motor (550w) ensures powerful and smooth operation.
5. **Large Hook Type:** Enhances the machine's capacity for heavy-weight stitching.
6. **Versatile Fabric Compatibility:** Suitable for working with heavy fabrics like leather and denim.
7. **Sturdy Stand Table:** Provides stability and support during heavy-duty stitching tasks.
8. **Power Efficiency:** Operates at 220V, ensuring efficient power consumption.
9. **Fully Automatic Lubrication:** Maintains optimal performance with an automatic lubrication system.

Cons:

1. **Specialized for Heavy Fabrics:** While ideal for heavy fabrics, it may not be suitable for lighter materials.
2. **Not Suitable for Beginners:** The high-speed and heavy-duty nature may be challenging for beginners to handle.

The Singer 9900-H High-Speed Direct Drive Single Needle Lock Stitch Machine is a robust choice for heavy-weight stitching tasks, offering adjustable features, powerful performance, and durability.

10. Singer FM/HD 4423 Electric Sewing Machine

If you prefer not to have two separate machines—one for heavy-duty lock stitch and one for a designer electric sewing machine—you can consider the FM/HD 4423 heavy-duty sewing machine. This machine serves as both a robust high-speed sewing machine with 1100 stitches per minute and fulfills your designer requirements with 59 different stitch functions, similar to the Usha Stitch Magic.

[SINGER FM/HD 4423 ELECTRIC SEWING MACHINE](#)

[Check the Price from Flipkart](#)

The Singer Heavy-duty 4423 Sewing Machine is a powerhouse designed to make your sewing tasks rapid and effortless. With 23 built-in stitch patterns, including basic, stretch, and decorative stitches, it provides versatility for various projects. Featuring 59 built-in stitch functions, this machine allows you to choose the ideal stitching mechanism for each tailoring endeavour. The fully automatic one-step buttonholer simplifies the buttonhole creation process, completing it in a matter of seconds.

Multiple Stitch Functions:

- The machine boasts 59 built-in stitch functions, ensuring a wide range of sewing operations for different projects.

One-step Buttonholer:

- The fully automatic one-step buttonholer makes creating buttonholes quick and hassle-free.

Specifications:

- **Brand:** Singer
- **Model Name:** FM/HD 4423
- **Colour:** Grey
- **Type:** Electric
- **Shade:** Grey
- **Number of Stitches:** 23
- **Stitch Functions:** 59
- **Number of Buttonhole Styles:** 1
- **Sewing Speed:** 1100 SPM
- **LCD Screen Display:** No
- **Material:** Plastic and Metal
- **Shape:** Square
- **Number of Needle Positions:** 3

Performance Features:

- **Thread Tension Adjustment:** Yes
- **Maximum Stitch Width:** 6 mm
- **Bed Type:** Free Arm

Body And Design Features:

- **Bobbin Type:** Top Drop-in
- **Bobbin Winder:** Yes
- **Foot Pedal Type:** All-purpose Foot, Buttonhole Foot, Zipper Foot, Button Sewing Foot
- **Built-in Needle Threader:** Yes
- **Touchscreen:** No
- **Fabric Selector Knob:** Yes
- **Start/Stop Button:** Yes
- **Programmable Needle Up Down:** Yes
- **Extension Table:** No

Convenience Features:

- **Automatic Reverse:** Yes
- **Twin Needle Guard:** Yes
- **LED Needle Light:** Yes
- **Automatic Thread Cutter:** Yes

Dimensions:

- **Width:** 22 cm

- **Height:** 34 cm
- **Depth:** 45 cm
- **Weight:** 7.9 kg

Pros:

1. **Versatility:** 23 built-in stitch patterns and 59 stitch functions for various sewing projects.
2. **One-step Buttonholer:** Quickly and effortlessly create buttonholes in seconds.
3. **Sturdy Construction:** Metal and plastic combination for durability.
4. **LED Needle Light:** Enhanced visibility for precise sewing.
5. **Automatic Thread Cutter:** Convenient for efficient sewing.

Cons:

1. **No LCD Screen:** Lacks a digital display for advanced settings.
2. **No Extension Table:** The machine does not come with an extension table, limiting the workspace for larger projects.
3. **Less Speed** compared to Umbrella and other heavy-duty sewing machines.

The Singer FM/HD 4423 Electric Sewing Machine combines durability with functionality, making it an excellent choice for heavy-duty sewing tasks. With its array of stitch patterns and functions, it caters to the needs of both beginners and experienced sewers.

- The variable speed controller, coupled with the start/stop button, enables hands-free operation, providing control and convenience.

4. Maximum Stitch Width and Length:

- Achieve detailed and varied stitches with a maximum stitch width of 7mm and a maximum stitch length of 5mm.

5. Programmable for Combination Patterns:

- The machine is programmable for up to 50 combination patterns, offering customization and flexibility in designs.

6. Extension Table:

- An extension table is provided for handling extra-wide projects, catering to a diverse range of sewing needs.

7. One-step Buttonholes:

- The machine features 7 one-step buttonholes, simplifying the buttonhole stitching process.

8. Memorized Needle Up/Down:

- The memorized needle up/down feature with down as the default setting enhances efficiency and precision.

9. Automatic Thread Cutter:

- The automatic thread cutter streamlines the sewing process, saving time and effort.

10. LCD Screen with Touchpad:

- The innovative LCD screen with touchpad facilitates fast navigation and direct stitch selection, enhancing user experience.

11. Stitch Pattern Memory Capability:

- The machine boasts stitch pattern memory capability, allowing users to recall and replicate favorite stitches effortlessly.

12. Foot Pressure Adjustment:

- Easily adjust foot pressure to accommodate different fabrics, ensuring optimal stitching results.

13. Additional Features:

- Manual thread tension control, one-hand needle threader, snap-on presser feet, drop feed, locking stitch button, twin needle guard, easy reverse button, speed control slider, auto declutch bobbin winder, extra high presser foot lift.

Technical Specifications:

- **Maximum Stitch Width:** 7mm
- **Maximum Stitch Length:** 5mm
- **7 One-step Buttonholes**
- **Memorized Needle Up/Down with Down as Default Setting**
- **Horizontal Full Rotary Hook Bobbin System**

Pros:

1. **Versatile Designs:** With 120 built-in designs and mirrored editing, the machine caters to a wide array of creative projects.
2. **User-friendly Operation:** Variable speed control, start/stop button, and touchpad make operation convenient and efficient.
3. **Precision Stitching:** Achieve detailed and precise stitches with maximum width and length settings.
4. **Customization Options:** Program up to 50 combination patterns for personalized and unique creations.
5. **Extension Table:** The extension table accommodates extra-wide projects with ease.
6. **Efficient Buttonhole Stitching:** The one-step buttonholes simplify the buttonhole stitching process.
7. **LCD Screen with Touchpad:** The innovative screen and touchpad enhance navigation and stitch selection.

Cons:

1. **Complexity for Beginners:** The abundance of features may be overwhelming for beginners; a learning curve is expected.
2. **Price:** The advanced features may come with a higher price tag compared to basic

sewing machines.

The Dream Maker 120 Computerized Sewing Machine is a dream come true for those seeking versatility, efficiency, and creative freedom in their sewing projects. With its extensive features and customizable options, it stands as a reliable companion for sewing enthusiasts and professionals alike.

Overlock Stitching Machines for Boutique

In the realm of boutique sewing, precision and professional finishing are paramount. One essential machine that can elevate the quality of your creations is the Overlock Stitching Machine. This specialized equipment is designed to add a professional touch to your garments by preventing fraying and unravelling of fabric edges.

What is an Overlock Stitching Machine?

An overlock stitching machine, commonly known as a serger, is a versatile sewing machine that trims the fabric edge and encases it in thread, preventing fraying. So basically, an overlock sewing machine is required to sew the fabric edges. This results in a neat and durable finish, making it an invaluable tool for boutique owners aiming for high-quality, professional-looking garments.

Advantages of Overlock Stitching Machines in a Boutique:

1. **Seam Finishing:** Overlock machines excel in finishing seam edges, preventing fraying and ensuring the longevity of your creations.
2. **Professional Look:** The neat and tidy finish provided by overlock stitches adds a touch of professionalism to your garments, enhancing their overall appeal.
3. **Versatility:** Overlock machines can handle various fabrics, making them suitable for a wide range of boutique projects.
4. **Time Efficiency:** With the ability to trim and sew simultaneously, overlock machines streamline the sewing process, saving time and effort.

12. Rilson Portable Overlock Machine with Copper Motor

[Check the Price from Flipkart](#)

Description:

- Portable machine with a detachable Rilson copper motor.
- Thread Stand and Accessory Kit included.
- Steel Parts for durability.
- Compatible with all types of fabrics.
- Space-efficient and easy to carry anywhere.

Product Highlights:

- **High-speed Performance:** Up to 3300 SMP for quick and efficient stitching.
- **Robust Body:** Made from high-degree tempered steel for long-lasting usage.
- **Durable Copper Motor:** Ensures efficient and durable performance.
- **Easy to Carry:** Portable design with a handle for convenience.
- **Stitch Styles:** Offers up to three stitching styles for versatility.
- **Three Needle Positions:** Allows precise stitching as per your requirements.
- **Motorized Flatbed:** Effortlessly stitches garments without hassles.
- **Automatic Thread Cutter:** Eliminates the need for scissors.

Specifications:

- **Brand:** Rilson
- **Model Name:** Portable Overlock Machine with Copper Motor
- **Color:** Black
- **Type:** Overlocker
- **Number of Stitches:** 3
- **Sewing Speed:** 3300 SPM
- **Material:** High Degree Tempered Steel Parts, Copper Motor
- **Number of Needle Positions:** 3
- **Power Consumption:** 10 W
- **Weight:** 12 kg

Incorporating the Rilson Portable Overlock Machine into your boutique's sewing arsenal will undoubtedly enhance the quality and efficiency of your work, ensuring that your creations stand out with a professional touch. Make the smart choice for your boutique and elevate your sewing capabilities with an overlock stitching machine.

Final Recommendation

Choosing the right sewing machine for your boutique is a crucial step to ensure efficiency and quality in your creations.

Best Sewing Machine for a Small Boutique: Our top suggestion is the USHA Stitch Magic. If budget is a concern, consider an Umbrella machine, which usually falls within the 4k to 7k INR range and is suitable for heavy-duty tasks. Alternatively, the Singer FM HD 4423 is also a good option.

Best Sewing Machine for a Medium-Size Boutique: Opt for one Umbrella machine and a

Usha Stitch Magic. If the budget allows, consider a direct-drive motor sewing machine with Stitch Magic.

Best Sewing Machine for a Large Boutique: Choose either the Usha Stitch Magic or the Singer FM HD 4423, add one Direct Drive Motor Machine, and include an Overlock Serger. If you have the budget and a passion for design, the Usha Dream Maker 120 is a fantastic choice.

These are our recommendations, but you can choose from any of the 12 machines listed above. Sewing machines are a personal choice, depending on individual preferences and specific needs. Decide for yourself and enjoy your sewing!
