

Disha Fashion Institute Maheshtala Branch - Vocational Training in Tailoring

Disha Fashion Institute provides tailoring training courses in Nangi. This is the oldest tailoring school of Disha, running for more than 25 years. Anyone from Maheshtala, Budge Budge, Batanagar, Akra, Santoshpur, Metiabruz, Tollygunge, Behala area, who wants to be a tailor or wants to pursue a tailoring career can join our classroom training in Nangi. If you are living outside of these area and the travelling is difficult, then you can join the online tailoring classes conducted by Disha main branch.

The institute has a team of experienced and highly qualified tailors who provide quality tailoring training to students. All tailoring courses are government certificate course where the students are certified from educational board of vocational training training and research.

If you are interested in online tailoring class or fashion designing course then you can visit or call to our main branch. Go to the home page of this website and you will get all the details.

Admission Process

You can take admission in our sewing courses at any time of the year. You need to bring 3 passport size photographs and a xerox of your address proof. The below mentioned accessories will also be required which can be bought from any local shop for sewing accessories.

There are no strict eligibility criteria that exist concerning academic background. But we prefer that the candidate should have basic schooling. In our tailoring classes, we draw the patterns on graph paper at first with specific measurements. So the student should be proficient in basic arithmetic calculations and the concept of a graph.

In terms of age as well, there are no strict criteria that exist. But we do not prefer below 18 years aged children to join tailoring classes who are not going to school. Some students have tailoring as vocational/additional subjects in the school curriculum and they want to learn it more proficiently. They are very much welcome in our tailoring school.

No upper age bar exists as a criterion. Anyone at any age can learn to tailor.

Having a sewing machine at home is not a must-have criterion for joining our stitching classes. You will need a sewing machine at some point. But you can buy the machine after a few days of starting the tailoring course as well. Moreover, we have several types of machines available in the school. When you can practice sewing machine operations.

Mandatory Tools for basic tailoring course

Non-Mandatory Tools(Discuss with teacher before buying)
